

Loyal American Life Insurance Company Commission Schedule

This Commission Schedule (hereinafter, this "Schedule"), is attached to and made a part of the Associate Agreement between LOYAL American Life Insurance Company (LOYAL) and the Agent. All capitalized terms herein shall have the meanings ascribed to them in the Associate Agreement. LOYAL may modify this Schedule after giving Agent the advance written notice required by state law or ten (10) days' advance written notice in states where no such advance written notice period exists. Agent shall receive compensation in accordance with the terms of the Associate Agreement and this Schedule as noted below.

- LOYAL shall pay Agent the compensation described above on premium received and accepted by LOYAL for issued policies solicited by Agent on or after the effective date of this Schedule subject to the terms and conditions of the Associate Agreement and this Schedule. For all policies issued in any other state except Washington, Commissionable Premium is the policies original issue gross premium less any discounts or reductions including, but not limited to the Household/Spouse discount, and less the premium designated to cover the Part B Deductible if applicable to the plan purchased. For Washington, the Commission is calculated on the collected premium. Commissionable premium can never exceed the premium actually billed and received by the Company. Commissions are not payable on the Enrollment Fee or the premium that is attributable to the Part B deductible in Plans C & F, unless state requirements differ. All Medicare Supplement policies, based on guaranteed issue requirements of the Balanced Budget Act, will receive 2% in years 1 –6 (unless state requirements differ) for the writing agent only, or as shown on the schedule.
- Should you recruit and appoint any subagents, your compensation on business written by them will be reduced by any amounts that would be paid to those contract levels. In order to receive compensation (override commissions) on any subagent, you must have a resident or non-resident license in any state where the subagent writes business if the state has so mandated.
- Compensation is expressed as a percentage of premium received by LOYAL. Compensation for the first policy year is first year commission. Compensation is renewal commission beginning in policy year two, except as otherwise noted. First year and renewal commissions on plans of insurance not listed shall be determined by LOYAL. Compensation on internal policy replacements, exchanges and conversions will be compensated according to LOYAL guidelines in effect at the time the policy is written. Policies are not considered to be internal replacements if there is a lapse in coverage greater than 31 days. Internal Replacement commissions will be paid to the original writing agent on the lesser of the replaced policy's commissionable premium or the new policy's Commissionable Premium. The commission rate applied to the Commissionable Premium will be based on the replaced policies effective date and coverage year. For Affiliate Replacement policies issued in any state other than California, Louisiana, Maryland, Nevada and Washington, LOYAL will pay Affiliate Replacement commissions at 90% of the commissionable premium to the original writing agent, based on the commission schedule at the time the policy is issued if the original writing agent for one HealthSpring issued policy is replacing that policy with another HealthSpring Medicare Supplement Policy. Affiliate Replacement policies must be fully underwritten and issued by one HealthSpring company to replace a policy previously issued by another HealthSpring company. Advances will not be paid on any Internal Replacement policy. An affiliate replacement is the change between HealthSpring underwriting companies (e.g. a HealthSpring CHLIC policy replacing a HealthSpring LOYAL policy) by the original writing agent. All other replacements are considered to be internal replacements.
- All of the following apply, unless state requirements differ: Policy fees, any other fees, and/or premium rate-ups and renewal increases are non-commissionable; no commissions shall be paid on underwriting or substandard premium rate-ups or renewal premium increases; commissions are paid on the initial premium only and are not paid on any increase in premium due to age change or plan wide rate increases; and, premium reductions will affect the initial premium accordingly.
- COMMISSION STATEMENT – Statements are generated bi-weekly that report commission for the bi-weekly period as well as other monetary transactions between you and LOYAL. The bi-weekly transactions are summarized to obtain a total net balance. When total commissions exceed all amounts due to the Company for the statement period, the excess will be paid to you. When commission chargebacks, interest, negative advances and negative commissions exceed commissions earned, the commission statement total is called a debit balance. A debit balance is the total amount you must repay to LOYAL. The Debit balance is carried over to your next bi-weekly commission statement until such balance is fully paid.
- This Commission Schedule applies only to the products listed for so long as the Agreement remains in effect. LOYAL reserves and shall have the right, at its sole option and discretion, to adjust and change the commissions at any time. This Commission Schedule and any commissions payable hereunder may be modified by LOYAL, in its sole discretion, upon written notice to the Agent which may be contained in any Company Field Bulletin or other written communication to Agent.

Cigna National Health Insurance Company Commissions Schedule

This Commission Schedule (hereinafter this "Schedule"), is attached to and made a part of the Associate Agreement between Cigna National Health Insurance Company (CNHIC) and the Agent. All capitalized terms herein shall have the meanings ascribed to them in the Associate Agreement. CNHIC may modify this Schedule after giving Agent the advance written notice required by state law or ten (10) days' advance written notice in states where not such advance written notice period exists. Agent shall receive compensation in accordance with the terms of the Associate Agreement and this Schedule as noted below:

- CNHIC shall pay Agent the compensation described above on premium received and accepted by CNHIC for issued policies solicited by Agent on or after the effective date of this Schedule subject to the terms and conditions of the Associate Agreement and this Schedule. The commission rates noted in this Schedule apply to Commissionable Premium only. Commissionable Premium is the policies original issue gross premium less any discounts or reductions, including but not limited to Household/Spousal discounts, and less the premium designated to cover the Part B Deductible if applicable to the plan purchased. Commissionable premium can never exceed the premium actually billed and received by the Company. Commissions are not payable on the premium that is attributable to the Part B deductible in Plans C, F and Extended Basic, unless state requirements differ. All Medicare Supplement policies, based on guaranteed issue requirements of the Balanced Budget Act, will receive 0% in years 1 – 6 (unless state requirements differ) for the writing agent only, or as shown on the schedule.
- Should you recruit and appoint any subagents, your compensation on business written by them will be reduced by any amounts that would be paid to those contract levels. In order to receive compensation (override commissions) on any subagent, you must have a resident or non-resident license in any state where the subagent writes business if the state has so mandated.
- Compensation is expressed as a percentage of premium received by CNHIC. Compensation for the first policy year is first year commission. Compensation is renewal commission beginning in policy year two, except as otherwise noted. First year and renewal commissions on plans of insurance not listed shall be determined by CNHIC. Compensation on internal policy replacements, exchanges and conversions will be compensated according to CNHIC guidelines in effect at the time the policy is written. Policies are not considered to be internal replacements if there is a lapse in coverage greater than 30 days. Internal Replacement commissions will be paid to the original writing agent on the lessor of the replaced policy's commissionable premium or the new policy's commissionable Premium. The commission rate applied to the Commissionable Premium will be based on the replaced policies effective date and coverage year. For Affiliate Replacement policies issued in any state other than California, Louisiana, Maryland, Nevada and Washington, CNHIC will pay Affiliate Replacement commissions at 90% of the commissionable premium to the original writing agent, based on the commission schedule at the time the policy is issued if the original writing agent for one Cigna National Health Insurance Company issued policy is replacing that policy with another Cigna National Healthcare Medicare Supplement Policy. Affiliate Replacement policies must be fully underwritten and issued by one Cigna National Health Insurance Company to replace a policy previously issued by another Cigna National Health Insurance Company. Advances will not be paid on any Internal Replacement policy. An affiliate replacement is the change between Cigna National Health Insurance underwriting companies (e.g. a HealthSpring CNHIC policy replacing a HealthSpring CHLIC policy) by the original writing agent. All other replacements are considered to be internal replacements.
- Premium rate-ups and renewal increases are non-commissionable. No commissions shall be paid on underwriting or substandard premium rate-ups or renewal premium increases. Commissions are paid on the initial premium only and are not paid on any increase in premium due to age change or plan wide rate increases, unless required by law. Premium reductions will affect the initial premium accordingly.
- COMMISSION STATEMENT – Statements are generated bi-weekly that report commissions for the bi-weekly period as well as other monetary transactions between you and CNHIC. The bi-weekly transactions are summarized to obtain a total net balance. When total commissions exceed all amounts due to the Company for the statement period, the excess is paid to you. When commission chargebacks, negative advances and negative commissions exceed commissions earned, the commission statement total is called a debit balance. A debit balance is the total amount you must repay to CNHIC. Debit balances are carried over to your next bi-weekly commission statement until such balance is fully repaid.
- This Commission Schedule applies only to the products listed for so long as the Agreement remains in effect. CNHIC reserves and shall have the right, at its sole option and discretion, to adjust and change the commissions at any time. This Commission Schedule and any commissions payable hereunder may be modified by CNHIC, in its sole discretion, upon written notice to the Agent which may be contained in any Company Field Bulletin or other written communication to Agent.

Cigna Insurance Company Commission Schedule

This Commission Schedule (hereinafter this "Schedule"), is attached to and made a part of the Associate Agreement between Cigna Insurance Company (CIC) and the Agent. All capitalized terms herein shall have the meanings ascribed to them in the Associate Agreement. CIC may modify this Schedule after giving Agent the advance written notice required by state law or ten (10) days' advance written notice in states where not such advance written notice period exists. Agent shall receive compensation in accordance with the terms of the Associate Agreement and this Schedule as noted below:

- CIC shall pay Agent the compensation described above on premium received and accepted by CIC for issued policies solicited by Agent on or after the effective date of this Schedule subject to the terms and conditions of the Associate Agreement and this Schedule. The commission rates noted in this Schedule apply to Commissionable Premium only. Commissionable Premium is the policies original issue gross premium less any discounts or reductions, including but not limited to Household/Spousal discounts, and less the premium designated to cover the Part B Deductible if applicable to the plan purchased. Commissionable premium can never exceed the premium actually billed and received by the Company. Commissions are not payable on the premium that is attributable to the Part B deductible in Plans C, F and Extended Basic, unless state requirements differ. All Medicare Supplement policies, based on guaranteed issue requirements of the Balanced Budget Act, will receive 0% in years 1 – 6 (unless state requirements differ) for the writing agent only, or as shown on the schedule.
- Should you recruit and appoint any subagents, your compensation on business written by them will be reduced by any amounts that would be paid to those contract levels. In order to receive compensation (override commissions) on any subagent, you must have a resident or non-resident license in any state where the subagent writes business if the state has so mandated.
- Compensation is expressed as a percentage of premium received by CIC. Compensation for the first policy year is first year commission. Compensation is renewal commission beginning in policy year two, except as otherwise noted. First year and renewal commissions on plans of insurance not listed shall be determined by CIC. Compensation on internal policy replacements, exchanges and conversions will be compensated according to CIC guidelines in effect at the time the policy is written. Policies are not considered to be internal replacements if there is a lapse in coverage greater than 30 days. Internal Replacement commissions will be paid to the original writing agent on the lessor of the replaced policy's commissionable premium or the new policy's commissionable Premium. The commission rate applied to the commissionable Premium will be based on the replaced policies effective date and coverage year. For Affiliate Replacement policies issued in any state other than California, Louisiana, Maryland, Nevada and Washington, CIC will pay Affiliate Replacement commissions at 90% of the commissionable premium to the original writing agent, based on the commission schedule at the time the policy is issued if the original writing agent for one Cigna Insurance Company issued policy is replacing that policy with another Cigna Insurance Company Medicare Supplement Policy. Affiliate Replacement policies must be fully underwritten and issued by one Cigna Insurance Company to replace a policy previously issued by another Cigna Insurance Company. Advances will not be paid on any Internal Replacement policy. An affiliate replacement is the change between Cigna Insurance Company underwriting companies (e.g. a HealthSpring CIC policy replacing a HealthSpring LOYAL policy) by the original writing agent. All other replacements are considered to be internal replacements.
- Premium rate-ups and renewal increases are non-commissionable. No commissions shall be paid on underwriting or substandard premium rate-ups or renewal premium increases. Commissions are paid on the initial premium only and are not paid on any increase in premium due to age change or plan wide rate increases, unless required by law. Premium reductions will affect the initial premium accordingly.
- COMMISSION STATEMENT – Statements are generated bi-weekly that report commissions for the bi-weekly period as well as other monetary transactions between you and CIC. The bi-weekly transactions are summarized to obtain a total net balance. When total commissions exceed all amounts due to the Company for the statement period, the excess is paid to you. When commission chargebacks, negative advances and negative commissions exceed commissions earned, the commission statement total is called a debit balance. A debit balance is the total amount you must repay to CIC. Debit balances are carried over to your next bi-weekly commission statement until such balance is fully repaid.
- This Commission Schedule applies only to the products listed for so long as the Agreement remains in effect. CIC reserves and shall have the right, at its sole option and discretion, to adjust and change the commissions at any time. This Commission Schedule and any commissions payable hereunder may be modified by CIC, in its sole discretion, upon written notice to the Agent which may be contained in any Company Field Bulletin or other written communication to Agent.

Medco Containment Life Insurance Company Commission Schedule

This Commission Schedule (hereinafter this “Schedule”), is attached to and made a part of the Associate Agreement between Medco Containment Life Insurance Company (MCLIC) and the Agent. All capitalized terms herein shall have the meanings ascribed to them in the Associate Agreement. MCLIC may modify this Schedule after giving Agent the advance written notice required by state law or ten (10) days’ advance written notice in states where not such advance written notice period exists. Agent shall receive compensation in accordance with the terms of the Associate Agreement and this Schedule as noted below:

- MCLIC shall pay Agent the compensation described above on premium received and accepted by MCLIC for issued policies solicited by Agent on or after the effective date of this Schedule subject to the terms and conditions of the Associate Agreement and this Schedule. The commission rates noted in this Schedule apply to Commissionable Premium only. For all policies issued in any other state except Washington, commissionable Premium is the policies original issue gross premium less any discounts or reductions, including but not limited to Household/Spousal discounts, and less the premium designated to cover the Part B Deductible if applicable to the plan purchased. For Washington, the Commission is calculated on the collected premium. Commissionable premium can never exceed the premium actually billed and received by the Company. Commissions are not payable on the premium that is attributable to the Part B deductible in Plans C, F and Extended Basic, unless state requirements differ. All Medicare Supplement policies, based on guaranteed issue requirements of the Balanced Budget Act, will receive 0% in years 1 – 6 (unless state requirements differ) for the writing agent only, or as shown on the schedule.
- Should you recruit and appoint any subagents, your compensation on business written by them will be reduced by any amounts that would be paid to those contract levels. In order to receive compensation (override commissions) on any subagent, you must have a resident or non-resident license in any state where the subagent writes business if the state has so mandated.
- Compensation is expressed as a percentage of premium received by MCLIC. Compensation for the first policy year is first year commission. Compensation is renewal commission beginning in policy year two, except as otherwise noted. First year and renewal commissions on plans of insurance not listed shall be determined by MCLIC. Compensation on internal policy replacements, exchanges and conversions will be compensated according to MCLIC guidelines in effect at the time the policy is written. Policies are not considered to be internal replacements if there is a lapse in coverage greater than 30 days. Internal Replacement commissions will be paid to the original writing agent on the lessor of the replaced policy’s commissionable premium or the new policy’s commissionable Premium. The commission rate applied to the commissionable Premium will be based on the replaced policies effective date and coverage year. For Affiliate Replacement policies issued in any state other than California, Louisiana, Maryland, Nevada and Washington, MCLIC will pay Affiliate Replacement commissions at 90% of the commissionable premium to the original writing agent, based on the commission schedule at the time the policy is issued if the original writing agent for one Medco Healthcare issued policy is replacing that policy with another Medco Healthcare Medicare Supplement Policy. Affiliate Replacement policies must be fully underwritten and issued by one Medco Healthcare company to replace a policy previously issued by another Medco Healthcare company. Advances will not be paid on any Internal Replacement policy. An affiliate replacement is the change between Medco Healthcare underwriting companies (e.g. a HealthSpring MEDCO policy replacing a HealthSpring ARLIC policy) by the original writing agent. All other replacements are considered to be internal replacements.
- Premium rate-ups and renewal increases are non-commissionable. No commissions shall be paid on underwriting or substandard premium rate-ups or renewal premium increases. Commissions are paid on the initial premium only and are not paid on any increase in premium due to age change or plan wide rate increases, unless required by law. Premium reductions will affect the initial premium accordingly.
- COMMISSION STATEMENT – Statements are generated bi-weekly that report commissions for the bi-weekly period as well as other monetary transactions between you and MCLIC. The bi-weekly transactions are summarized to obtain a total net balance. When total commissions exceed all amounts due to the Company for the statement period, the excess is paid to you. When commission chargebacks, negative advances and negative commissions exceed commissions earned, the commission statement total is called a debit balance. A debit balance is the total amount you must repay to MCLIC. Debit balances are carried over to your next bi-weekly commission statement until such balance is fully repaid.
- This Commission Schedule applies only to the products listed for so long as the Agreement remains in effect. MCLIC reserves and shall have the right, at its sole option and discretion, to adjust and change the commissions at any time. This Commission Schedule and any commissions payable hereunder may be modified by MCLIC, in its sole discretion, upon written notice to the Agent which may be contained in any Company Field Bulletin or other written communication to Agent.
